

Quad County Corn Processors, a 35 million gallon per year production facility and a 2.5 million gallon per year cellulosic ethanol facility in Galva, Iowa, seeks a hard-working, quick learning and self-motivated individual to become part of its Operations Team.

Responsibilities will include:

- Working in a professional team environment
- Operating plant equipment
- Operating computer control system
- Keeping accurate and timely logs
- Keeping work areas and equipment up to Food Safety Standards of cleanliness
- Performing quality control tests

Quad County Corn Processors offers competitive wages, vacation and personal time, 401K with company match, health and dental insurance, wellness program, fitness center reimbursement, clothing stipend, night shift premium, a Performance Pay incentive program, and much more.

The qualified candidate must be able to enter confined spaces, climb and work at heights and occasionally lift up to 75 pounds.

Applications are available at [www.quad-county.com](http://www.quad-county.com) and should be emailed to: [sonnyf@quad-county.com](mailto:sonnyf@quad-county.com). For more information, contact Sonny Ferman at (712) 282-4305 Ext. 104. Quad County Corn Processors is an equal-opportunity employer.
